1/9/2013

Dear Sir(s)

A.G. Vision Construction Nigeria Ltd is a Limited Liability Company registered in Nigeria with the financial and technical backing of some offshore companies and investors. We carry over forty years of experience in multiple construction activities. We share the Federal Government vision to develop Nigeria with a view to opening up the region and empowering the people.

A.G. Vision turner workshop was founded with talented members of the engineering profession in order to operate in the fields of general metal fabrication and specific engine parts reconditioning and was structured in order to satisfy customers first as we believe that customers comes in first place. This pragmatic approach has enabled the workshop to develop into one of the most dynamic business in its field.

In order to be able to carry through a successful business to business relationship we have assembled an outstanding collection of specialized tools as well as more versatile turning equipment and hands on material technicians that enable us to complete any general fabrication job or engine reconditioning and advisory.

Over the years the workshop has acquired broad expertise in its fields. Its qualified staff and up-to-date equipment, supported by extensive experience in compliance with international regulations and specifications, constantly increasing its technical capabilities, its cost effectiveness and its staff selected "a la carte" allow our workshop to deliver job of high quality which enabled us to acquire and maintain long-term relation with customers such as SETRACO, A&K, GILMOR, GITTO and ZEBERCED. A price list of our services is hereby attached and in case of any other not priced services or customized work you might need we preserve the right to price it on case by case basis.

Sincerely,

THE MANAGEMENT

AG VISION COSTRUCTION NIG.LTD
